

The Lifecourse Approach to MCH: Challenges and Strategies for Implementation

Arden Handler, DrPH

Professor

University of Illinois School of Public Health

Arden Handler's career reflects her long-standing commitment to improving the health of women, children and families. She received a BS from Cornell University in 1976, her MPH in MCH from UNC in 1980, with a DrPH from the University of Illinois School of Public Health (UIC-SPH) in 1987. She has been on faculty at the UIC-SPH since 1987 and is currently PI and Co-Director of the MCH Training Program and PI and Director of the MCH Epidemiology Program. She has a distinguished career in MCH as a researcher, educator, and advocate and a long history of developing continuing education programs aimed at increasing the analytic skills of the MCH workforce. She is the PI of the National MCH Leadership Retreat: Leadership, Legacy, and Community and is currently a member of the SACIM.

Amy Fine, MPH

Health Policy/Program Consultant

Center for Study of Social Policy

Amy Fine is an independent health policy and program consultant with over 25 years of experience working on issues related to MCH, public health, and health safety net programs. Working as a consultant, Ms. Fine has authored numerous reports including strategic assessments of the Maternal and Child Health Bureau's Healthy Start and SPRANS programs. Working with private foundations, she has authored multiple reports focused on the role of primary care pediatrics linking children to developmental services, the role of primary care pediatrics in the prevention of child maltreatment, and the role of the health sector in comprehensive, integrated place-based initiatives. She recently co-authored a major report to MCHB focused on strategic implementation of the life course approach in the field of MCH and Title V. Prior to becoming a consultant, Ms. Fine worked at AMCHP as well as the Center on Budget and Policy Priorities. She has an MPH in MCH from UNC.
