

A Life Course Dialogue: Exploring State-Level Implementation

Ana Novais, MA

Executive Director of Health
Division of Community
Family Health and Equity

Ana P. Novais, holds a master degree in Clinical Psychology, UCLN, Belgium, and is a graduate from the Northeastern Public Health Leadership Institute, University of Albany, NY and Leadership RI. Ana has worked in Public Health for about 26 years including 5 years in Africa (Cape Verde), 5 years in Portugal and for the past 16 years in the USA. Ana has worked for the RI Department of Health since 1998, first as an Education and Outreach Coordinator assuring the delivery of culturally and linguistically competent health promotion programs and as the Chief for the Office of Minority Health assuring the Department addresses the health needs of the racial and ethnic minority communities of RI. Since March 2006 as the Executive Director for the Division of Community, Family Health and Equity, Ana has lead the department efforts to achieve the goal of health equity for all Rhode Islanders by focusing in the areas of Health Disparities and Access to Care, Chronic Care and Disease Management, HIV/AIDS and Viral Hepatitis, Maternal and Child Health, Environmental Health, Health Promotion and Wellness.

Mary Ann Galloway, MPH

Director
Life Course Health Systems
Indiana State Department of Health

Mary Ann Galloway joined the Maternal and Child Health (MCH) Division of the Indiana State Department of Health (ISDH) in April 2010 as the Director of Life Course Health Systems. Mary Ann, or Mag as she likes to be called, has an MPH from the University of South Carolina and received a Project Management Professional (PMP) certification in 2006. She established and directed the Project Management Office at MPlan, a large health care insurer in Indiana and was in that position for three years. Prior to that engagement, Mag founded and directed a national consulting firm for over 20 years that specialized in healthcare system delivery development, project management and managed healthcare. In addition to working with large healthcare payors and health systems, her company worked with primary care and other health care providers who served mothers, infants, and children in over 20 states. She manages a team of Life Course Health Systems staff who oversee MCH grantees, MCH programs, and numerous partnerships and collaborations.
